

Metering pumps Model D

Doseuro model D are used in the most severe duty applications. Mechanical Diaphragm dosing pumps are the best solution when:

PUMPED LIQUID CONTAINS SMALL AMOUNTS OF SUSPENDED SOLIDS

PUMPED LIQUID IS HAZARDOUS

NO LEAKAGE IS ALLOWED

HIGH PRESSURE IS NOT REQUIRED

Applications

Injection of chemicals as coagulant, fertilizer, acids, polymers and much more.

Commonly used in the following applications:

- Fertigation
- Water treatment
- Paper industry
- Chemical industry
- Food industry
- Cooling towers

Features

- Simplex and multi-head versions are available.
 - BSPPm valve connections are standard. Flanged or other connections are available upon request.
 - Cataphoresis painting for gearbox.
 - Endless screw worm gear box supported by bearings and fully lubricated in an oil bath.
 - Fitted as standard with high quality 4 pole electric motor that conform to UNEL-MEC specifications, and range from 0,18kW to 0,75kW.
- Standard 3 phase voltages are 220-240V(Δ) 380-415 (Y) 50Hz / 220-280V(Δ) 380-480 (Y) 60Hz.

Standard 1 phase voltage 230V-50Hz.

Motors are available to meet a wide range of alternative specifications including: ATEX; different voltages, frequencies, higher insulation standards and more.

- Stroke adjustment can be made with the pump at rest or in operation and it can be manual or an automatic actuator can be driven by a 4-20 mA; different BUS; pneumatically.
- Components in wetted areas are available in a wide range of materials suitable for chemical injection applications.
- PTFE coated diaphragm.
